Subject: Hello & Good News from Boston, MA

Hello Ladies,

I am writing to you to share some great info. I am “back in the saddle” as an Environmental Protection Specialist. As you’ll see below, I am now working for another great mission, our veterans & keeping the VA Boston Health System clean & “green.”

As you’re probably aware, we are reading about Region 8 and the release from the abandoned Gold King Mine. I actually caught a quick glimpse and a couple words from Libby Faulk. What’s the truth & what are you able to share?

Otherwise, I hope that life is good & one or all of you want to visit me again back East?! On Thursday, Pat & I will celebrate our 10-year wedding anniversary! Britta, I know that you’ve got us beat!!

Hugs to you both & “hello” to Campbell, Nate & Dina.

Dawn Tesorero
